Concrete Oil and Stain Cleaner

Description: *Starpatch Concrete Oil and Stain Cleaner* is a specially formulated cleaner that will remove staining from oil and related products from most substrates. *Starpatch Concrete Oil and Stain Cleaner* is worker safe, environmentally responsible and available in various sizes.

Surface Preparation: Remove any dirt, debris, etc which may prevent from Starpatch Concrete Oil and Stain Cleaner from thoroughly penetrating stain that is to be removed. Wetting the surface prior to applying *Starpatch Concrete Oil and Stain Cleaner* often produces better results.

Dilution: Please see the dilution guide below.

Application: Use liquid on horizontal surfaces. Use gel on vertical and sloping surfaces. Use gel instead of liquid where environmental conditions may dry Starpatch Concrete Oil and Stain Cleaner too quickly for adequate penetration. Apply a flood application to stain that is to be removed. Let dwell for 15 -60 minutes. Agitate for better results. Rinse thoroughly with water. For best results use high-pressure hot water. Recover wastewater for recycling where facilities are available.

Caution:

Do not spray directly into eyes. May cause eye irritation.

First Aid:

Flush eyes with water for 15 minutes. If irritation continues consult a physician.

Clean up:

Clean rollers, brushes and sprayers with warm soapy water.

Important:

Do not freeze contents of container, store above freezing. Always test for colour, appearance and effectiveness in an inconspicuous area.

Container Sizes:

1, 4 and 20 Litre.

Caution: May cause skin irritation. In case of skin or eye contact, wash thoroughly with water. Please consult the MSDS for detailed safety and handling instructions. In case of eye contact consult with nearest physician. **KEEP OUT OF REACH OF CHILDREN.**

Warranty: Starpatch Concrete Products warrants that if its products prove to have manufacturing defects and Starpatch is notified of such within 6 months from date of Starpatch shipping, Starpatch will replace the defective products F.O.B. factory. Such product replacement shall constitute the sole and exclusive remedy for any claim under this warranty. This warranty is in lieu of all other warranties, expressed, implied or statutory and is strictly limited to its terms. Starpatch makes no warranty of merchantability or suitability of its products for any particular purpose. Starpatch sells its products upon the condition that the customers shall conduct their own tests to determine the suitability of the products for the customers intended purposes. Under no circumstances will Starpatch be liable for economic, special, incidental or consequential damages or losses of any kind whatsoever arising out of or occasioned by the selection, use, installation or replacement of this product.

Dilution Guide

Application	Dilution (parts water)	Notes
Oil Stains on Concrete	1 to 0	Pour Oil and Stain Remover on stain and leave for 20 minutes. Wipe up, power wash onto lawn or recover oil for recycling. Oil lift will remove 98% of stain upon application.
Oil Stains on Asphalt	1 to 4	Clean excess oil from the surface. Pour Oil and Stain Remover on asphalt surfaces and leave no longer than 20 minutes. Wipe up, pressure wash onto lawn or recover oil for recycling.
Floors in General	2 to 30	Traditional floor cleaners are caustic or alkaline based and toxic to the user. Oil and Stain Remover removes this safety and health hazard from the workplace and the home. After a first deep cleaning at a dilution of 1 to 4, dilution can be increased for subsequent applications (1 to 30).
Car and Truck Wash	5 to 30	Pollution build-up on vehicles requires constant maintenance. Alkaline and caustic cleaners attack the car finish. As well, hand soap products produce limited results. Oil and Stain Remover separates the oil and suspends the dirt without damaging the surface.
Brakes	1 to 6	Brake dust and fluid are traditionally cleaned with solvents and caustics. Oil and Stain Remover out-performs these chemicals and protects the user from toxic exposure.
Engines and under the Hood	1 to 6	Toxic engine degreaser damage hoses and plastics in the long run. Oil and Stain Remover cleans the engine compartment without risks to parts or the user's health.
Parts Wash	1 to 10	Varsol , acid and other solvents are highly toxic, and some are corrosive and should not come in contact with skin. Oil and Stain Remover gives superior cleaning results without toxic side effects and can be used as a hand cleaner.
Tar on Paint (Trucks)	1 to 10	Hot asphalt tends to stick to painted surfaces. Oil Lift instantly removes hot tar without damaging the paint.
Hubcaps and Tires	1 to 15	Don't use acids and caustics that melt paint on hubcaps. Oil and Stain Remover will instantly remove most brake dust and pollution. Note: Rough surface hubcaps trap the brake dust. Use 1 to 6 dilution and scrub or pressure wash for 100% results.1
Tools and Toll Boxes	1 to 15	Same as parts.
Oily and Stained Clothing	1 to 30	From work clothes to replacing bleach on whites, Oil and Stain Remover will remove stains on all colourfast fabrics. Removes red wine, blood, oil, etc. On stains, dilute 1 to 6 and spray direct. To replace laundry detergents, dilute 1 to 50 and pour on cup per large load.
